# RAPTOR

## TECH

### Technical Specifications

|                     |   |
|---------------------|---|
| Model Number:       | <b>CM 16-80K</b>  |
| Mat Size:           | <b>4' x 4' x 4"</b>                                     |
| Mat Bearing Area:   | <b>16 sq. feet</b>                                      |
| Crane Mat Weight:   | <b>460 lbs.</b>   |
| Max Outrigger Load: | <b>80 Kips</b>  |
| Min Float Size:     | <b>14 in<sup>2</sup> or 16 in DIA</b>                   |
| Manufacturing:      | <b>Made in the U.S.A.</b><br>with High Grade U.S. Steel |

### Product Features

- Capital Asset Investment
- Tire-Friendly Profile
- Lifetime Customer Support
- 20-Year Corrosion Warranty
- Near-Zero Deflection at 125% Capacity
- Tested and Certified
- Low Profile and Narrow Design
- Lightweight and High Strength
- Slip-Resistant Surface
- High Visibility Identification Labels
- Serial Numbered
- Crosby Pivot Links

### Performance

- Eliminate recurring mat expenses and invest in your business
- Only mat in the industry with a profile design that prevents sidewall damage
- Available for you today and tomorrow
- You'll replace your crane before you need to replace our mats
- Performance beyond the capabilities of any mat in the industry
- Proof load tested and certified for guaranteed performance
- Easy to setup and fits where most mats won't
- Reducing transportation costs and the strength of steel
- Prevent slips, trips and falls
- Easily identifiable load and square footage information for safe operation
- Product traceability compliant
- Industry standard recognized worldwide

\*Additional Data and Details

### Additional Options

- Fork-Lift Compatible
- Rack Stack and Lift System
- Swing Radius Protection
- Custom Colors and Finishes
- UHMW Bottom Plate (Freeze/Frost Proof)
- Lifting Options
- ISO Container Corner Fittings
- Military Grade

### Performance

- Reduce site setup time
- Complete stacking and lifting system for quick and safe transportation and lifting
- Improved work area control
- Custom colors and finishes to match fleet or brand image
- Prevents buildup of frozen debris
- Trunions, shackles, and lashing points customizable to your specifications
- Great versatility and transportation, setup and use
- Constructed to meet the needs of specific military applications globally

| Mat Bearing Area:   | <b>80 sq. feet</b>                                      |
| Crane Mat Weight:   | <b>4550 lbs.</b>  |
| Max Outrigger Load: | <b>450 Kips</b>   |
| Min Float Size:     | <b>20 in<sup>2</sup> or 24 in DIA</b>                   |
| Manufacturing:      | <b>Made in the U.S.A.</b><br>with High Grade U.S. Steel |

### Product Features

- Capital Asset Investment
- Tire-Friendly Profile
- Lifetime Customer Support
- 20-Year Corrosion Warranty
- Near-Zero Deflection at 125% Capacity
- Tested and Certified
- Low Profile and Narrow Design
- Lightweight and High Strength
- Slip-Resistant Surface
- High Visibility Identification Labels
- Serial Numbered
- Crosby Pivot Links

### Performance

- Eliminate recurring mat expenses and invest in your business
- Only mat in the industry with a profile design that prevents sidewall damage
- Available for you today and tomorrow
- You'll replace your crane before you need to replace our mats
- Performance beyond the capabilities of any mat in the industry
- Proof load tested and certified for guaranteed performance
- Easy to setup and fits where most mats won't
- Reducing transportation costs and the strength of steel
- Prevent slips, trips and falls
- Easily identifiable load and square footage information for safe operation
- Product traceability compliant
- Industry standard recognized worldwide

\*Additional Data and Details

### Additional Options

- Fork-Lift Compatible
- Rack Stack and Lift System
- Swing Radius Protection
- Custom Colors and Finishes
- UHMW Bottom Plate (Freeze/Frost Proof)
- Lifting Options
- ISO Container Corner Fittings
- Military Grade

### Performance

- Reduce site setup time
- Complete stacking and lifting system for quick and safe transportation and lifting
- Improved work area control
- Custom colors and finishes to match fleet or brand image
- Prevents buildup of frozen debris
- Trunions, shackles, and lashing points customizable to your specifications
- Great versatility and transportation, setup and use
- Constructed to meet the needs of specific military applications globally
