Atlas Copco Portable air compressors

XAMS 850 CD7 XATS 800 CD7 XAHS 710 CD7 XAVS 650 CD7

The next big thing is small

Atlas Copco is the leading manufacturer of portable compressed air machines in the world, and through constant research and technology, superior products are developed. The combination of performance, reliability, economy and convenience has resulted in an innovative range of single axle high capacity air compressors used in a variety of industries.

The next big thing is small

Our constant search for innovation and our commitment to your needs has resulted in a superior product providing the utmost in performance, reliability, economy and versatility.

As sandblasting and drilling have become principal cornerstones of their work, priority was not only given to performance and reliability, but also to improvement of mobility and maneuverability. Smaller and lighter means the operator can move to the next work point easier and faster, without the need for supplemental moving equipment.

Total cost of ownership through lower fuel consumption can be realized with the help of FuelXpertTM.

Above all, Atlas Copco compressors are built for reliability and easily maintained, providing many years of trouble free performance.

Features

- Small dimensions, light weight
- Single axle mounted
- Low noise output
- FuelXpertTM for optimized fuel consumption
- Full shift fuel tank
- Single side service points
- Full length service doors
- · Centralized fluid drains
- Electronic multi-function controller

Advantages

- · Lowest total cost of ownership
- Easy to transport
- · Easy to maneouver at worksite
- Ideal for urban use
- · Operator and environmental safe
- Comprehensive monitoring
- · Best fuel economy in class

Danger: Compressed air should never be supplied as breathing air unless air is properly purified for breathing. Atlas Copco assumes no responsibility or liability related to the purchaser's/user's breathing air system.

The information contained herein is general in nature and is not intended for specific construction, installation or application purposes.

Technical Specifications

Model Compressor	XAMS 850 CD7	XATS 800 CD7		XAVS 650 CD7
-		150 PSI	175 PSI	204 PSI
Normal effective working pressure				
	8.6 Bar 848 cfm	10.3 Bar	12 Bar 719 cfm	14 Bar
