Features & Benefits

New Frame Design

Vertical Hydraulic Tank--Eliminates possibility of cavitations

<u>Large Operator Area</u> -- Ergonomically friendly with repositioned steering wheel, broom rotation valve and lift & angle valve for ease of operation

New Hydrostatic Drive

New servo controlled hydrostatic pump

Hydrostat charge filter is mounted directly on the pump

New side by side forward/reverse pedals, positioned so that your heel always stays on the floor, eliminates operator fatigue

Fewer hoses & fittings for less maintenance

Redesigned Broom Swing Frame

Simple yet heavy duty design allows broom to be "pulled" not "pushed" like our competitor

Engine Compartment

Locking lever to prevent vandalism

Towing

3-Wheel on the Ground Towing Standard

Tires

Large 205/75-14 tires for increased load capacity

Redesigned Dash

Locking cover to prevent vandalism
