Who is Doosan?

Founded in 1896, Doosan is a strong, stable and global company with a long legacy in infrastructure support. Its history in equipment manufacturing began in 1937. Since 2005, we've grown to become the fifth largest construction equipment manufacturer in the world.

From our design concepts to manufacturing in our ISO-certified factories, Doosan machines are built for profit-making productivity and an unequalled ownership experience. And we provide high-performance service to match our high-powered equipment.

Our Customer Commitment

Doosan is committed to helping you be more productive. Our long-standing reputation for quality equipment, parts and product support instills customer confidence because everything we do is done with our customer in mind.

With Doosan Elite PLUS™, we take our customer commitment one step further by offering a full selection of product support solutions that help increase productivity, decrease downtime and improve your bottom line.

Doosan Elite PLUS™, our comprehensive product support program, is designed to protect and enhance resale value while helping you control costs. Our repair-before-failure approach allows you to manage your cash no matter what equipment you own. Doosan Elite PLUS™ offers Doosan Elite Assurance™ Warranty, Doosan GPS Program, Doosan Component Analysis Program™, and All-Makes Parts and Attachments. Each one of these valuable programs can be used separately or as a comprehensive product support system for your entire fleet.

Doosan can be found in every area of the infrastructure support business, which encompasses many facets of the heavy construction equipment industry.

Many contractors might be surprised to know that, while Doosan is a relatively young brand in the North American construction equipment market, the organization has a global manufacturing history going back more than 75 years.

Today, Doosan Infracore Construction Equipment America (DICEA) and its affiliates are industry leaders in the engineering, manufacturing and marketing of construction equipment including skid-steers, excavators, wheel loaders, articulated dump trucks, attachments, air compressors, lighting systems and generators as well as compact construction equipment and engine power systems.

Building Your Tomorrow Today

Our construction equipment group leads Doosan's infrastructure support business (ISB) segment. Other ISB businesses include:

- Forklifts & Material Handling
- Machine Tools
- Castings & Forgings
- Construction & Engineering
- Power Generation
- Water Treatment & Desalination
- Renewable Energy

Your North American Partners

Throughout our decades of selling equipment in North America, we've been building a network of dealers designed to surpass the standards for customer service. From coast to coast, there's a solid infrastructure that supports your equipment, including a parts distribution facility in Chicago and a service training facility in Georgia, sales training center in Arizona, attachments design and development in Minnesota and sales & marketing support in North Dakota.

NOTE – Where applicable, dimensions are in accordance with Society of Automotive Engineers (SAE) and ISO standards. Specifications and design are subject to change without notice. Pictures of Doosan excavators may show other than standard equipment. All dimensions are shown in inches. Respective metric dimensions are enclosed by parentheses. Doosan Construction Equipment is manufactured with a Quality Management System that is in compliance with ISO 9001:2008.

All dimensions are given for Doosan excavators equipped with standard tracks.

Specifications

Lifting Capacity

DX140LCR-3

Track Width: 8' 6" (2600 mm) STD TRACK
 Boom: 15' 1" (4600 mm)
 Arm: 9' 10" (3000 mm)

Bucket: None
 Track Shoe Width: 24" (600 mm)
 Counter Weight: 7,716 lb (3500 kg)

Load Radius Over Front
 Load Radius Over Side
 Unit: 1,000 lb (1000 kg)

Feet

1. Load point is the end of the arm.
2. Capacities marked with an asterisk (*) are limited by hydraulic capacities.
3. Lift capacities shown do not exceed 75% of minimum tipping loads or 87% of hydraulic capacities.
4. The least stable position is over the side.
5. Lift capacities are in compliance with ISO 10567.

DOOSAN

**A NAME YOU CAN'T FORGET.
PRODUCTS YOU CAN'T IGNORE.**

If you want to do more, there are two simple syllables you need to remember. Doosan. Doosan delivers performance, productivity, durability, comfort and easy maintenance in all of its machines. When you look into our products and our committed dealer and support networks, you'll know that we're up for your biggest, toughest jobs. And once you experience for yourself what these machines can do, you'll never forget it.
