Note: All charts are for information only and should not be used for lifting purposes. Favelle Favco reserves the right to make specification changes without prior notice.

**M220D TYPICAL FOUNDATION & BUILDING REACTION  
(CRANE REEVED 1-FALL AT 180 ft BOOM LENGTH)**

\*: IN SERVICE WIND = 45 mph

‡: OUT OF SERVICE WIND = 95 mph

**Notes:**

- 1 Structure is designed using permissible stress method.
- 2 These loads will vary by change of boom length, height and type of tower, actual site wind conditions, no of falls and change of wind speed.
- 3 To calculate alternative options for M220D refer to Favelle Favco Design Sheet named "Crane Weight Wind Chart".

**FREE STANDING BUILDING REACTION**
