### Focus on GTH-5021R

### IMPROVE PERFORMANCE

Seven completely redesigned machines featuring updated engines, improved serviceability, more interchangeable components and accessories, and enhanced lifting and loading capabilities.

### REDUCE COSTS

Innovative solutions and hardwearing components are continuously explored to increase your return on investment and reduce your cost of ownership.

### RAISE PROFITABILITY

Common components and accessories across the entire telehandler range reduce storage space and operator and technical training costs, to save you time and money.

### INCREASE PRODUCTIVITY

Providing the wide field of vision and comfort operators need to work safely and focus on the job, the spacious cab includes new ergonomics and new optional and standard features.

**Stringent testing, proven performance**  
 Genie telehandlers have undergone rigorous life cycle testing - to help ensure that they perform as expected on some of the most demanding job sites.

\* Weight will vary depending on options and/or country standards. \*\* Stage IIIA engine & Stage IIIB engine. \*\*\* Stage IIIB engine.

If you are a construction professional, you need telehandlers that are reliable, durable and versatile. If you are a rental company, you rely on machines that provide good returns and offer the right combination of **Compact, High-Reach** and **Rotating** performance to meet virtually any requirement. With our three telehandler product families, you will find the right solution, whatever your business.

**Industry-leading engine**

Like all Genie products, Genie telehandlers, are known for being service-friendly. Equipped with simplified and powerful Stage IIIB engines (Stage IIIA on demand), maintenance and troubleshooting are fast and easy. Engine covers open at just the right angle, and the valve bank, fuel tank, radiator, filters and greasing points are all positioned within easy reach. Hydraulic boom greasing points are also very simple to access.

**GREAT PERFORMANCE  
IN A SMALL PACKAGE**

Whether you need to work indoors or out, Genie Compact telehandlers are easy to manoeuvre in confined and crowded environments while offering the ability to lift, move and place heavy loads without compromising on power. Utilizing intuitive controls and features designed with the user in mind, these machines are easy to operate, fast and simple to service, and come equipped with the latest low-emissions 74hp Deutz Stage IIIB (Tier IV Final) compliant engines.

- Easy to transport, lightweight and compact.
- Excellent manoeuvrability in confined spaces.
- Great ground clearance for outdoor applications.
- Hydrostatic transmission for smooth, high precision positioning.
- Multi-purpose capabilities with interchangeable attachments.
- Double brake discs for responsive braking efficiency.

**GTH™-2506 & GTH™-3007  
Genie® Compact Telehandlers'**  
applications include:

- ▶ Construction
- ▶ Refurbishment
- ▶ Masonry
- ▶ Landscaping
- ▶ Recycling

**WHEN ENDURANCE AND VERSATILITY  
ARE PARAMOUNT**

Designed to offer excellent return on investment and increase your uptime, Genie High Reach telehandlers are true workhorses. Providing load capacities up to 4000 kg (8,818 lbs), lifting heights up to 17.61 m (58 ft) and available with a wide choice of attachments, these models are well-suited to particularly challenging work site demands.

- Ideal for tough jobs that demand reliable, high endurance capabilities.
- Superior handling performance and precise positioning.
- Hydrostatic transmission and new gearbox offer high torque and high traction speeds.
- Long reach, a class leading outside turning radius and overall machine width come with excellent drivability, to allow operators to perform tasks up to six floors high, even in congested and confined spaces.

**GTH™-4014 & GTH™-4018  
Genie® High Reach Telehandlers'**  
applications include:

- ▶ Construction
- ▶ Refurbishment
- ▶ Industrial
- ▶ Road and tunnel building
- ▶ Bridge construction

**ROTATION HAS NEVER  
BEEN SO SIMPLE**

Built to take on challenging tasks where precise positioning, high capacity and outreach are required, Genie Rotating telehandlers provide the ability to raise heavy loads with or without stabilizers, and access places where large cranes cannot go.

- Combination of superior lifting height, high-precision positioning, extra high capacity, ease of operation and simple maintenance.
- A versatility-driven design and wide choice of easily interchangeable attachments, (e.g. jib, hoists, man platform) make one machine suitable to handle an extremely wide variety of applications.
- A 400° rotating turret makes positioning simple, and precise.
- Designed to raise heavy loads with or without stabilizers.

**GTH™-4016R, GTH™-4018R &  
GTH™-5021R Genie® Rotating  
Telehandlers'** applications include:

- ▶ Construction
- ▶ Refurbishment
- ▶ Steelwork
- ▶ Industrial
- ▶ Road and tunnel building
- ▶ Bridge construction
