L223/L225/C227/C232

OMPACT TRACK LOADERS

THE BOOM

BEST-IN-CLASS DUMP HEIGHT AND REACH

The re-designed vertical lift geometry of the SUPER BOOM® enables operators to load material right in the centre of the truck bed. In addition, its pivot point is very close to the machine's centre of gravity, resulting in exceptional stability of the machine at work. The patented New Holland SUPER BOOM® is standard on L218; L220; L223; L225 and C232.

LOADING EFFICIENCY WITH SELF-LEVELLING

The optional self-levelling system provides increased attachment control since the bucket stays parallel to the ground during loader raise operations, preventing material spillage and increasing precision on load handling operations

RADIAL MODELS GOOD FOR DIGGING

The 200 Series includes three new radial lifting Models, L213, L215 and C227, that deliver a huge increase in bucket and lift breakout forces compared to the previous models. Radial models are also suitable for applications where maximum reach is needed at medium height; On our radial models for example, at 719 mm height the reach is 1109 mm!

	ENGINE POWER (hp)	BUCKET BREAKOUT FORCE (kN)	LIFT BREAKOUT FORCE (kN)
L150	38	15.6	10.7
L160	46	16.5	12.6
L213	46	18.5	19
L215	52	18.5	19

THE TRACK LOADERS

MASTERS OF SLIPPERY TERRAINS

Our dozer-style undercarriage is engineered to hold fast on steep slopes and take command of muddy or sandy terrain. The undercarriage has a rigid track frame with fewer moving parts, so it is more durable and easier to maintain than suspension track systems.

SMART UNDERCARRIAGE TECHNOLOGY

Avoid de-tracking!

Avoid de-tracking on inclines with the crawler-style rollers that have a larger inner diameter flange positioned between the track tabs.

Easy track clean- out!

The elevated drive sprocket increases component life by keeping the motor assembly out of material and moisture.

A lifetime undercarriage!

Sealed oil lubricated rollers and idlers grant an extended life of the undercarriage.

A DELUXE CAB

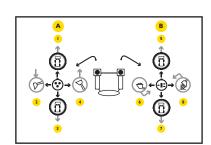

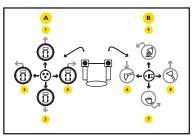

COMFORT CAB

The new cab offers best-in-class comfort, with plenty of head and leg room. The good news is that the wide cab is standard on every model, big or small.

CONTROLS BUILT AROUND YOU

Infinite proportional controls are standard on all models! What's more, electro-hydraulic controls make it easy to switch from ISO to H-pattern with one button, adapting to the operator's preferences and habits.

The flat floor gives more freedom to your feet.

The mechanical suspension or heated air suspension seats add to the operator's comfort. On the models with the front door the cab is sealed and pressurised, this means that dust and water stay outside and the noise level is significantly reduced.

SUPERIOR VISIBILITY

TWICE THE VISIBILITY AROUND THE WORKSITE **MEANS... SAFETY!**

Front visibility: Not only is the cab very wide, also the threshold has been lowered to give excellent visibility on the cutting edge of the bucket.

Side visibility: the much larger side windows allow you to keep an eye on the wheels or tracks, and therefore have full control over the machine providing great visibility to the outside as well. Thinner side screen grids and front pillars also contribute to the outstanding visibility.

Rear visibility: the rear window is even bigger than before!

Sky view: the see-through area on the cab roof provides a clear view to the bucket, even when it is positioned at full height

Courtesy of Machine. Market

EASY MAINTENANCE

A - Hydraulic oil fill

B - Engine oil fill

C - Air filter

D - Fuel fill **E** - Engine oil check

F - Battery

G - Engine oil filter H - Engine oil drain

EASY ACCESS

When routine maintenance is easy it gets done! The service points are grouped and easily accessible from the rear compartment door.

TWO BOLTS AND THE CAB IS UP!

The cab tilting system is very simple and only requires the release of two bolts: the new flip-top cab tilts forward for complete component access.

SAFETY IS A PRIORITY

The boom can be locked in the upper position from inside the cab allowing maintenance to be carried out safely. When the cab is tilted an automatic system locks it granting operator's safety.

CONVENIENT BATTERY ACCESS AND GREASING POINTS

The battery and engine oil are very easy to replace and are easily accessed by removing a cover on the left side of the rear quarter. Changing the engine and hydraulic oil has never been so easy with the lateral drain hoses!

THE ATTACHMENTS

200 SERIES GIVEYOU MANY BUSINESS OPPORTUNITIES

New Holland skid steer loaders and compact track loaders are masters of versatility, since they can tackle with ease an astonishing variety of tasks thanks to the wide range of attachments available

WHEEL EXCAVATOR WHEEL COMPACTOR

WHEEL WIDTH (mm)	DEPTH (mm)	WEIGHT (kg)	FLOW	COMPATIBLE NH MOD.
130	150-450	1155	High	L223 and bigger
130	200-600	1260	High	L218 L220 C227

APPLICATION: Trenching jobs on hard, compact materials like asphalt and concrete, digging trenches on roads or in areas where movement is restricted.

WHEEL	DEPTH	WEIGHT	FLOW	COMPATIBLE
WIDTH (mm)	(mm)	(kg)		NH MOD.
200-250 300-350-400	0-750	550	Std	L223 and bigger

APPLICATION: Compacting the bed of a trench before adding an asphalt surface layer.

ASPHALT FLOAT

WIDTH (mm)	DEPTH (mm)	WEIGHT (kg)	FLOW	COMPATIBLE NH MOD.
1900	N.A.	620	Std	L218 and bigger

APPLICATION: Backfilling of trenches and widening road surface while maintaining the road's original gradient.

CONNECT UNDER PRESSURE

The attachments are easy and fast to change with the standard Connect Under Pressure feature. Pressure is automatically released when the auxiliary line is disconnected. No wrenches are needed. In addition, the optional hydraulic attachments coupler increases uptime and productivity on the jobsite by allowing operators to exchange attachment quickly and safely without getting off the cab.

PLANER BROOM BUCKET

WIDTH (mm)	DEPTH (mm)	WEIGHT (kg)	FLOW	COMPATIBLE NH MOD.
350	0 - 110	590	Std	L218 and bigger
450	0 - 150	790	High	L218/L220/C227
600	0 - 170	950	High	L223 and bigger
1.000	0 - 130	1.090	High	L223 and bigger

APPLICATION: Planning on asphalt or concrete. Overlaying road, industrial and courtyard surfaces. Maintenance of stretches of road. Restoration of damaged, bumpy or worn surfaces.

WIDTH (mm)	WEIGHT (kg)	COMPATIBLE NH MOD.
1525	225	L213 L215
1680	278	L218 L220
1850	460	L218 and bigger
2080	522	L223 L225 C232

APPLICATION: Clearing yards, roads, footpaths, etc. Also efficient for snow clearance.

THE ATTACHMENTS

BACKHOE CEMENT MIXER COMPACTION ROLLER

WIDTH (mm)	DEPTH (mm)	WEIGHT (kg)	FLOW	COMPATIBLE NH MOD.
1500	2275	700	Std	L220 and smaller
1500	3000	790	Std	L218 and bigger
1500	3500	860	Std	L223 and bigger

APPLICATION: Creation of trenches, foundations, drain and irrigation channels, etc. in private or public constructions, both for new or maintenance jobs.

	WIDTH (mm)	DEPTH (mm)	WEIGHT (kg)	FLOW	COMPATIBLE NH MOD.
•	1250	200	280	Std	L213 L215
•	1500	300	300	Std	L218 and bigger
•	1660	350	380	Std	L223 and bigger
Ī	1700	400	450	Std	C232

APPLICATION: Production of cement for civil construction in isolated or difficult-to-access areas, or with limited availability of electric energy.

WIDTH (mm)	DEPTH (mm)	WEIGHT (kg)	FLOW	COMPATIBLE NH MOD.
1100	N.A.	787	Std	All

APPLICATION: Ground preparation through compaction of earth, gravel, sand, etc.

FARM FORK FORK AND GRAPPLE

WIDTH WEIGHT (mm) (kg)		COMPATIBLE NH MOD.
1525	153	L213-L215
1680	170	L218-L220
1850	185	L218 and bigger
2080	242	L223-L225-C232

APPLICATION: General farm yard applications.

		-	
	WIDTH (mm)	WEIGHT (kg)	COMPATIBLE NH MOD.
	1525 250		L213-L215
	1680	260	L218-L220
Ī	1850	310	L218 and bigger
Ī	2080	380	L223-L225-C232

APPLICATION: "Mucking out" bale and silage handling. Also suitable for industrial applications.

BALE SPIKE

FORK LENGHT	WEIGHT	COMPATIBLE
(mm)	(kg)	NH MOD.
980	79	

APPLICATION: Handling of round bales.

THE ATTACHMENTS

WIDE RANGE OF BUCKETS

DIRT&FOUNDRY LOW PROFILE LOW PROFILE EXTENDED HEAVY DUTY MANURE/SLURRY LIGHT MATERIAL

WIDTH (mm)	COMPATIBLE NH MOD.				
1525	L218-L220				
1680	L218-L220				
1830	L223-L225				
1850	L223-L225-C227				
2080	L223-L225-C232				

APPLICATION: Digging, excavating, grading, material handling.

4XI MULTIPURPOSE BUCKET

	WIDTH (mm)	WEIGHT (kg)	COMPATIBLE NH MOD.		
	1525	253	L213-L215		
•	1680	283	L218-L220		
•	1850	340	L218 and bigger		
	2080	435	L223-L225-C232		

APPLICATION: Applications as conventional bucket, grab for back filling or as a dozer.

HIGH TIP BUCKET

WIDTH (mm)	WEIGHT (kg)	COMPATIBLE NH MOD.
1525	364	L213-L215
1680	285	L218-L220
1850	352	L218 and bigger
2080	496	L223-L225-C232

APPLICATION: Increase dump height by 800 to 1.200 mm.

PALLET FORK

FORK LENGHT (mm)	WEIGHT (kg)	COMPATIBLE NH MOD.
1000	160	C227 and smaller
1100	164	C227 and smaller
1200	168	All

APPLICATION: Handling of palletizes loads.

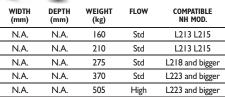

AUGER (STD FLOW) / AUGER (HIGH FLOW)

HAMMERS

APPLICATION: Concrete demolition jobs, trenching and general excavation work.

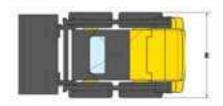

AUGER MAX DIAM. (mm)	DEPTH (mm)	WEIGHT (kg)	FLOW	COMPATIBLE NH MOD.		
760	1200	20-175	Std	All		
900	1200	30-225	High	L218 and bigger with High Flow		

APPLICATION: Boring of holes in the ground such as telegraph poles, electricity pylons, signposts, metallic frame pillars, tree and shrub planting.

Not all the attachment range is listed in this brochure, for complete list check P&S attachment catalogue.

PARTS AND SERVICE

The New Holland dealer network is, in itself, the best guarantee of continued productivity for the machines it delivers to its customers. New Holland service technicians are fully equipped to resolve all maintenance and repair issues, with each and every service point providing the high standards they are obliged to observe under New Holland's stringent quality guidelines.

The New Holland global parts network ensures fast, reliable, replacement parts for less downtime, increased productivity and, of course, profitable operation for its customers.

AT YOUR OWN DEALERSHIP

The information contained in this brochure is intended to be of general nature only. The NEW HOLLAND KOBELCO CONSTRUCTION MACHINERY S.p.A. company may at any time and from time to time, for technical or other necessary reasons, modify any of the details or specifications of the product described in this brochure. Illustrations do not necessarily show products in standard conditions. The dimensions, weights and capacities shown herein, as well as any conversion data used, are approximate only and are subject to variations within normal manufacturing techniques.
