

GT55 PALreach

Truck Mounted Forklift

PALFINGER

5,500 lbs capacity across the bed of the transport vehicle

The all new PALFINGER GT55 PALreach Truck Mounted Forklift provides one-sided offloading on tight job sites or in other situations where space is at a premium. With a 50 h.p. diesel engine and conical chassis design, the PALreach sets new standards for power and structural strength in the industry. The anti-stall hydraulic drive system allows a new operator to drive like a veteran and make full use of all the power and strength, right from the start.

GT55 PALreach Truck Mounted Forklift

Scissor Mechanism

50 h.p. Diesel Engine

The P.L.U.S. feature (PALFINGER Load/Unload System) helps to ensure the machine is riding properly on the transport vehicle and provides a quicker, simpler dismount of the machine.

Like all machines in the new GT-series, the PALreach offers a center-seated operator's position with a certified R.O.P.S. guard to provide the operator with an optimal view of the load and the job site.
